I have made a promise to myself not to socialize with the same people, to remain sober and not to cheat on my wife. I just love the way it feels to do the right thing, it is stress free and even therapeutic.

PERSONAL FIT

On November 19th, 1982 I was born at Methodist Hospital in Dallas, Texas, I only have one sibling (a sister) by my mother that never maintained and raised the two of us on her own. Throughout my schooling I kept a B and C grade average until the 8th or 9th grade when I eventually dropped out. It was around the age of 15 that I packed up and left the house to pursue another route in life that lead me to never being employed. At around that same age and time I began to make money illegally. I began to really take to the streets by this age. I started to deal narcotics as a way to make ends meet. Well by the time I reach middle school my mother became ill and with the lack of physical and financial support I took to the streets. This behavior and lifestyle eventually led me to being incarcerated in State Jail and TDCJ three times each which totaled to 13 years or so. Overall with that being said, I have served 5 ½ years so far on this sentence and prior to my incarceration I did not understand the importance of patience nor did I have any skills what so ever. So with the help of volunteer programs, classes, and books I have learned quite a few adaptive skills. These skills help me manage my time and deal with issues in a healthy productive manner. I know this to be good because I find myself looking at and handling situations within my life differently to the point that it is even amazing to me how much I have grown. I am committed to being an upstanding law abiding citizen; coming back to prison is not an option for me. I have made a promise to myself not to socialize with the same people, to remain sober and not to cheat on my wife. I just love the way it feels to do the right thing, it is stress free and even therapeutic. I believe that once the substances were out of my system I received more clarity about my life and circumstances. Through the years of self-analysis from myself and others. I just did not like the person that I had become. I have the drive and hustle of Sean "P-Diddy" Combs; I used my investment talent on drugs and other means of illegal gains. I have always thrived on integrity and honesty. My greatest changes have been to acquire a legal trade as well as my unwillingness to break the law in the future. I would like to start my business within the first 180 days of my release. I can be trusted with investment capital because I am a trustworthy person. The business that I am going into is the thing I absolutely love the most. I must do this it is my greatest passion. I will be released no later than June 23, 2021.
