So why settle for the rest, when you can have the best for less

I was born on April 1, 1974 at Parkland Hospital in Dallas, TX. I was born to the parentage of Joe Ardbuckle and Cheryl. I was raised in a single parent home, because my dad stayed incarcerated and in and out of prison most all of my childhood. We communicated through the mail and I often saw him at times when he was allowed to come home on furloughs. I was raised in South Dallas which is considered the ghetto because of its high crime and drug statistics, so my mother did what any mother who wanted more for her kids would do; which was to move to a much nicer community with less crime and a much higher level of education called the City of Desoto which is a Dallas suburb. I have one sister who I was raised with, one niece and nephew who I love and treat as if they were my own. I was raised in a very spiritual, church going family. We attended at Paul A.M.E church in South Dallas. There I became a Boy Scout of America and an usher at the church. I was also in a community activist group called the NAACP tri-city youth council in which we were mentored by community leaders and encouraged to be a positive influence to other youths in our community. I made decent grades in school and worked as a bus boy for a few months at a seafood restaurant called the Bayou Inn in Desoto. When the restaurant went out of business and when the Tri-City youth council lost its funding and there were not anymore funds for the Eagle Scouts my life seemed to spiral downhill. Left with no more positive outlets I chose to be a follower and submitted to peer pressure and was introduced to drugs and alcohol. I eventually not only moved back to where my mother was trying to keep me from but became a product of the environment in a negative way. A way I was not taught or raised to be. I started hanging around the wrong crowd and got mixed up in the drug world not only selling marijuana but also by participating in using illicit drugs as well. I eventually went to prison on a 10 year sentence for Constructively Delivery of Cocaine. I would eventually get out and never really was committed to change yet and continued to go back to the same life. Before I knew it I was going back and forth in and out of prison on several different charges. A couple of them were Unlawful Possession of Firearms. I guess I had given myself a permission statement to put my faith in a gun to protect me instead of the Lord. I now see my mistakes. I felt just because I had gotten shot with one, that if I had only had one at the time then I would have never gotten shot, but I now see that was only an excuse that I was giving myself. I now put my trust in God and pray no weapon formed against me shall prosper and not only do I say it but I now have faith and walk in it. I now believe I have finally reached my maturity level and seek the positives out of life versus the negatives. I feel the three years I have been incarcerated has actually given me time to reflect on what it is that I am truly put here on earth for. I was blessed to come to a program like PEP to teach me the tools I need and to help me accomplish a vision that I have always dreamed of but just thinking about it now it has become my reality. My dream was to not only own my tow truck company but one day be successful enough and provide legal jobs and mentor troubled youths in a community that was intended for me to encourage in the beginning in South Dallas. I know I cannot change the past but I can definitely work on the present and have positive goals to accomplish for my future. I will let God continue to guide me while remaining humble, proactive, motivated and determined with self-discipline to continue to strive for success seeking wisdom, knowledge and courage on a need to becoming a positive and productive paying member of society. I am just thankful to be a part of PEP and I cannot wait to explore my goals and become an alumni and start my own

business after I have learned what is left to learn about my business and let my actions shows my trustworthiness.

OPPORTUNITY

- Can I solve the problem given my skills and personality?
 - Yes, given my years of knowledge in the towing and roadside assistance field. I attend to guarantee reliable, dependable, fast and effective service to all my customers and business associates in the towing industry.
- Is the customer looking for a more holistic solution than his or her immediate complaint?
 - The alternative here at Texas Elite Towing Service is to fill the niche job market and offer a better quality of service to all customers at a very low competitive price.
- Do I need to do all of the work myself or can I hire others to help me and still maintain quality?
 - I will be the principal in this venture and expect to carry a lot of the workload and burdens at first, but eventually I will be incorporating employees for that task. While e I will be providing hands on professional education and job placement training.
- Is there growth potential to expand my business, or is this a dying market?
 - Records show that our economy is steadily growing and the revenue for the industry is expected to trend higher for years to come.
- How soon can I get my business up and running?
 - ➤ My vision, plan and goal is set at 2 to 3 years. I will be gaining more experience, knowledge and network expertise by working with a franchise towing company.
- Is this something that will take a lot of cash to get started or is it more of a question of hustle?
 - ➤ I am looking at a start-up cost of about \$100,000 to 120,000. The probability of a low start-up cost will be about \$50,000 to 70,000.
- Is this something I would be proud to share with my family and parole officer?
 - This will definitely be something I wish and pray that I will be able to share with everyone close to me, especially my family. I know they will also want to help and share in this legacy for generation to come.
- Is the opportunity (Activity and Start Date) consistent with potential parole restrictions?
 - Yes.

- How will I deliver this better idea to my customers?
 - ➤ I will advertise promotions heavy in this field through pure promotions and virtually free promotions.
- Is my delivery (retail store, home service, etc.) consistent with how I will produce the service (one-day delivery, hand-made products, etc.)?
 - ➤ I will fill job opportunities with an understanding of what my company can handle and nothing more.
- Is my solution consistent with my passion for selling?
 - ➤ I have a passion for assisting people in times of need and I believe in treating individuals as I would want to be treated.

 - ➤ It is less and I plan to take hold of the market while still making a great amount of profit with customer satisfaction.
- Is the approximate cost of my solution lower than the price?
 - Consent towing will be lower and non-consent towing will be competitively high, but once I create more clientele I know the non-consent towing price will get competitively lower.
- Do I need a fixed location (Storefront) or is this a mobile business?
 - Yes, I will require land and a store front for automobile storage and fencing for security purposes.
