PRODUCT/SERVICE OFFERING

Big Boy Brunch will be a one of a kind food truck based out of Dallas Texas. Our food truck can be stationery or on the move to a location near you. We plan to have four delivery drivers to fulfill on-line orders. We believe that 50% of our revenue will come from the sale of our sandwiches, 25% through our specialty beverages and 25% through our specialty desserts. We plan to open by the summer of 2026.

A few of our specialty items will consist of a donut burger, a pancake and bacon ham sandwich and a variety of other creations made with a variety of batters. We will be supporting our local farmers by sourcing all our ingredients locally. Our sandwiches will not only be one of a kind but a hearty portion as well. We plan to operate under extended hours to accommodate the early birds and night owls. We plan to expand by promoting our business on various social media platforms.

MARKET/INDUSTRY

The growth potential for travel food in Dallas is tremendous. We will make sure our food is tasty, and that we have great employee service in order to maximize growth. Our customers will wait no more than 10 minutes for their food.

COMPETITION

There are two local food trucks in the area that will be our direct competition. Indirect competition will be Door Dash or other restaurants.

DIFFERENTIATION

We travel to wherever you are at in Dallas with no travel fee. We bring exotic brunch meals right to your door.

MARKETING STRATEGY

Price:

The prices for Big Boy Brunch will range from \$7 to \$14 for meals which is a little above average. Our prices will cover the cost of our items, produce and gas for my food truck.

Place:

Big Boy Brunch will be located in downtown Dallas in Deep Ellum. Multiple people visit here when they come from out of town. This will also be a great location for my business to take off and build my customers up and help my business grow. There are many different businesses that we could collaborate with in that area.

Promotion:

We will be promoting our business via social media platforms such as TikTok videos of food and customers as they come to enjoy their meals. We will also be uploading pictures of meals and deals to Instagram. We will be handing out business cards and leaving some inside convenience stores and gas stations.

VISION AND OBJECTIVES

My business started while I was incarcerated. I have always wanted my own business. My family loves to cook different types of food and I hope to just get my customers and make their day with a nice meal. I am willing to pursue this venture because a lot of people are always down for breakfast and lunch. This is my passion, I really enjoy cooking and trying different types of foods. The goals I have for my business is to soon turn my food truck into a restaurant for people who enjoy a great meal with their friends or family.

First Year:

We plan to set up at strategic locations throughout DFW area providing great tasting food.

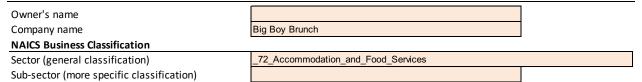

Third Year:

We will have a second food truck to able to expand our services.

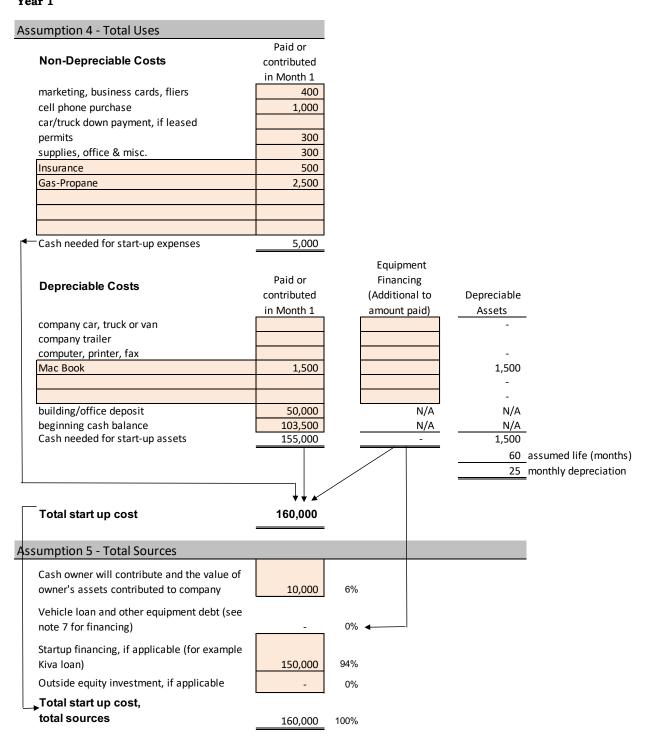

Fifth Year:

We should have our first restaurant open with an additional food truck.
